Inclusivity

Is your technology fair for everyone?

Will everyone have access to the technology?
Yes, but it's mainly made for students

Does this technology have a built-in bias?
Yes, there is to specify students, because the app is mainly made for students.

Does this technology make automatic decisions and how do you account for them?
Yes, it does but not in a complicated way so it shows the quote built on the level.

Is everyone benefitting from the technology or only a a small group? Do you see this as a problem? Why/why not?
We don't see it as a problem when most of our customers are students.

Does the team that creates the technology represent the diversity of our society?
Yes our team perfectly represents the diversity in our society by having a point of view around the problem from both genders

Now that you have thought hard about the inclusivity of the technology, what improvements would you like to make? List them below.
