

NAME: Web Application

DATE: September 2, 2024 11:13 PM

DESCRIPTION OF TECHNOLOGY

Web Application for helping shelters to connect with possible adopter. By having this web application it helps both adopter and shelter to easily connect one to another.

HUMAN VALUES

TRANSPARENCY

IMPACT ON SOCIETY

Implement a verification process: To reduce the risk of fake accounts and scams, the web app could require users to verify their identity or provide additional information before creating an account or completing an adoption.

Provide clear guidelines and policies: The web app could provide clear guidelines and policies for adoption procedures, including information on what to expect during the adoption process, required documentation, and adoption fees....

STAKEHOLDERS

SUSTAINABILITY

HATEFUL AND CRIMINAL ACTORS

- Implementing policies and guidelines that prohibit hate speech or discriminatory content on the platform.
- Providing training and education to users on the importance of inclusivity and non-discrimination.
- Implementing measures to prevent the creation of fake accounts, such as requiring users to provide proof of identity before using the platform.
- Verifying adoption profiles and agreements before they can be posted on the platform....

DATA

FUTURE

PRIVACY

- Implement strong encryption protocols for all personal data collected, transmitted and stored by the app to ensure that data is secure and not vulnerable to unauthorized access.
- Implement privacy-by-design principles to ensure that privacy and data protection are embedded into the design of the app, rather than added as an afterthought.
- Obtain explicit consent from users before collecting their personal data, and provide them with clear and concise information about how their data will be used and who will...

DESCRIPTION OF TECHNOLOGY
Web Application for helping shelters to connect with possible adopter. By having this web application it helps both adpoter and shelter to easily connect one to another.

IMPACT ON SOCIETY

Now that you have thought hard about the impact of this technology on society (by filling out the questions...

If you think about the real problem this technology is going to solve. If you think about the ability of this technology to solve the real problem. If you think about possible negative effects and whether this technology will contribute to a world you want to live in. If you think about all that, what improvements would you make? In technology? In context? In use?...

HATEFUL AND CRIMINAL ACTORS

Now that you have thought hard about how bad actors can impact this technology, what improvements would...

If you think about this technology being used to break the law, or avoid the consequences of breaking the law, or to be used against certain groups, or to attack the truth or to pit certain groups against each other. If you think about all of that, what improvements would you (want to) make? In the technology? In context? In use?...

PRIVACY

Now that you have thought hard about privacy and data protection, what improvements would you like to make?...

If you think about this technology invading someone's privacy or collecting personal data and if you think about the way this technology is compliant with prevailing law and mitigates dataprotection risks and concerns. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

HUMAN VALUES

Now that you have thought hard about the impact of your technology on human values, what improvements...

If you think about the impact of this technology on human values and needs. If you think about how this technology affects the identity of the user, the autonomy of the user (can the users make their own decisions?) and the health and well-being of the user. If you think about all that, what improvement would you (want to) make? In the technology?...

STAKEHOLDERS

Now that you have thought hard about all stakeholders, what improvements would you like to make? List them...

If you think about all stakeholders of this technology. If you think about stakeholders that are less obvious. If you think about the way certain stakeholders are affected by this technology and if you want to take them into consideration. If you think about all that, what would you (want to) improve? In the technology? In context? In use?...

DATA

Now that you have thought hard about the impact of data on this technology, what improvements would you...

If you think about the limitations of data. Things like subjectivity, incomplete datasets and so on. If you think about the way new insights are handled. If you think about the sustainability of the collection of data or the data that is collected from the users. If you think about all that, what would you (want to) improve? In the technology? In context?...

INCLUSIVITY

Now that you have thought hard about the inclusivity of the technology, what improvements would you like to...

If you think about accessibility to this technology. If you think about built in biases or automatic decisions that may be biased. If you think about who is benefitting from this technology and the diversity of the team that creates the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

TRANSPARENCY

Now that you have thought hard about the transparency of this technology, what improvements would you like t...

If you think about the communication on the way the technology works and the businessmodel. If you think about the explanation on automatic decisions that are made. If you think about complaint procedures and transparency on possible negative effects. If you think about all that, what would you (want to) improve? In the technology? In context?...

SUSTAINABILITY

Now that you have thought hard about the sustainability of this technology, what improvements would you like t...

If you think about the direct and indirect energy use and the materials that are used in the technology. If you think about the lifespan of the technology and the hidden environmental impact of the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

FUTURE

Impact Improvement: Now that you have thought hard about the future impact of the technology, what...

If you think about an utopian and a dystopian scenario. If you think about the way this technology can change the world. If you think about the consequences of a different party buying your technology. If you think about all that, what would you (want to) improve? In the technology? In context? In use? ...
