Impact on society

What impact is expected from your technology?

This category is only partial filled.

What is exactly the problem? Is it really a problem? Are you sure?

Er moet iedere dag een hulpverlener aanwezig zijn om de hulpvrager te helpen in zijn dagelijkse sleur. zo weet iemand met Apraxie niet wat hij bijv. 's ochtends moet doen of hoe hij iets moet doen. dmv gebruik te maken van de Smart Mirror hopen we deze hulpverlener weg te kunnen halen.

Are you sure that this technology is solving the RIGHT problem?

Er is veel personeelstekort in de zorg en tijd is geld. dus wil je er voor zorgen dat 1 zorgverlener zoveel mogelijk mensen tegelijk kan helpen.

How is this technology going to solve the problem?

De Spiegel kan bij iedereen in huis gehangen worden. Dit zorgt er voor dat het ook geen raar object is. Met behulp van de spiegel kan de zorgvrager zelfstandig zijn dagelijks ritme doorlopen.

What negative effects do you expect from this technology?

minder sociale interactie. er is een leercurve om met de spiegel te leren werken.

In what way is this technology contributing to a world you want to live in?

er zijn minder zorgverleners per zorgvragers nodig.

Now that you have thought hard about the impact of this technology on society (by filling out the questions above), what improvements would you like to make to the technology? List them below.

This question has not been answered yet.

Smart Mirror

Human values

How does the technology affect your human values?

This category is only partial filled.

How is the identity of the (intended) users affected by the technology?

Door deze technologie zullen gebruikers zelfstandiger worden en minder afhankelijk zijn van anderen.

How does the technology influence the users' autonomy?

Het product begeleidt gebruikers bij hun handelingen omdat de gebruikers zelf moeite hebben met het correct uitvoeren van handelingen. Ze zijn wel afhankelijk van deze technologie om zelf aan de slag te gaan.

What is the effect of the technology on the health and/or well-being of users?

Deze technologie bevordert de zelfredzaamheid van gebruikers, dit heeft positieve effecten op verschillende vlakken.

Now that you have thought hard about the impact of your technology on human values, what improvements would you like to make to the technology? List them below.

This question has not been answered yet.

Smart Mirror

Stakeholders

Have you considered all stakeholders?

This category is not applicable for this technology.

Technology Impact Cycle Tool

Smart Mirror

Data

Is data in your technology properly used?

This category is only partial filled.

Are you familiar with the fundamental shortcomings and pitfalls of data and do you take this sufficiently into account in the technology?
nee

How does the technology organize continuous improvement when it comes to the use of data?
we verbeteren onze data handling niet

How will the technology keep the insights that it identifies with data sustainable over time?
-

In what way do you consider the fact that data is collected from the users?
-

Now that you have thought hard about the impact of data on this technology, what improvements would you like to make? List them below.

This question has not been answered yet.

Smart Mirror

Inclusivity

Is your technology fair for everyone?

This category is only partial filled.

Will everyone have access to the technology?

nee

Does this technology have a built-in bias?

nee

Does this technology make automatic decisions and how do you account for them?

nee

Is everyone benefitting from the technology or only a a small group?

Do you see this as a problem? Why/why not?

voornamelijk een kleinere groep, namelijk hulpbehoevende met Apraxie.

Does the team that creates the technology represent the diversity of our society?

-

Now that you have thought hard about the inclusivity of the technology, what improvements would you like to make? List them below.

This question has not been answered yet.

Technology Impact Cycle Tool

Smart Mirror

Transparency

Are you transparent about how your technology works?

This category is only partial filled.

Is it explained to the users/stakeholders how the technology works and how the business model works?

nee

If the technology makes an (algorithmic) decision, is it explained to the users/stakeholders how the decision was reached?

-

Is it possible to file a complaint or ask questions/get answers about this technology?

nee

Is the technology (company) clear about possible negative consequences or shortcomings of the technology?

-

Now that you have thought hard about the transparency of this technology, what improvements would you like to make? List them below.

This question has not been answered yet.
