Impact on society

What impact is expected from your technology?

What is exactly the problem? Is it really a problem? Are you sure?

Slow detection and trajectory of medical issues

Are you sure that this technology is solving the RIGHT problem?

Instead of waiting to cure a disease, we detect them beforehand or sooner at the least

How is this technology going to solve the problem?

We are able to detect multiple health issues and give information about these health issues. Before you would ever visit a medical expert

What negative effects do you expect from this technology?

There is need for very heavy regulation to prevent dataleaks or companies abusing data.

In what way is this technology contributing to a world you want to live in?

Less people will be too late detecting diseases, and therefore diseases wont be life threatening

Now that you have thought hard about the impact of this technology on society (by filling out the questions above), what improvements would you like to make to the technology? List them below.
