

IMPROVEMENTSCAN - CANVASSpring Boot (Java) and React (Javascript)

NAME: Spring Boot (Java) and React (Javascript)

DATE: September 14, 2025 11:22 AM

DESCRIPTION OF TECHNOLOGY

It's a office reservation system. The requirements outline a comprehensive system for managing team schedules and room reservations, utilizing React for the frontend and Java for the backend. The implementation will leverage a CI/CD platform with GitLab CI to ensure continuous integration and delivery. Unit testing is essential, with frameworks like JUnit for Java being employed to ensure code reliability....

HUMAN VALUES

User-Friendly Interface,Conflict Resolution Mechanism,Health and Well-Being Features,Accessibility Options

TRANSPARENCY

IMPACT ON SOCIETY

- Enhanced User Experience (UX):

Make the system intuitive with a user-friendly interface, allowing employees to easily book and modify their office schedules.

Include features like notifications, reminders, and calendar integrations to streamline the booking process.

- Dynamic Space Allocation:

Implement algorithms to automatically allocate office space...

STAKEHOLDERS

SUSTAINABILITY

Optimize Energy Use: Reduce energy consumption by optimizing server and client-side processes.

Ensure Compatibility: Design the software to be compatible with a range of devices to prevent frequent hardware upgrades and reduce e-waste.

Encourage Lifespan Extension: Provide clear documentation for the company to maintain and update the software, extending its lifespan.

HATEFUL AND CRIMINAL ACTORS

Robust User Authentication and Access Control,Data Integrity and Monitoring,Anomaly Detection Algorithms,Transparent Reporting and Analytics,Communication Controls,Anonymous Reporting Mechanism

DATA

FUTURE

Strengthen Privacy: Ensure better protection of user data.

Increase Flexibility: Make the system adaptable for future updates.

Improve Sustainability: Optimize energy usage to reduce environmental impact.

Maintain Ethics: Set guidelines to preserve ethical usage under new ownership.

PRIVACY

Encryption of passwords and names for outsiders, only visible to admins, to avoid data leaks

INCLUSIVITY

IMPROVEMENTSCAN - CANVAS Spring 2025 LPSD (Java) and React (Javascript)

NAME: Spring Boot (Java) and React (Javascript)

DATE: September 14, 2025 11:22 AM

DESCRIPTION OF TECHNOLOGY
It's a office reservation system. The requirements outline a comprehensive system for managing team schedules and room reservations, utilizing React for the frontend and Java for the backend. The implementation will leverage a CI/CD platform with GitLab CI to ensure continuous integration and delivery. Unit testing is essential, with frameworks like JUnit for Java being employed to ensure code reliability....

IMPACT ON SOCIETY

Now that you have thought hard about the impact of this technology on society (by filling out the questions...

If you think about the real problem this technology is going to solve. If you think about the ability of this technology to solve the real problem. If you think about possible negative effects and whether this technology will contribute to a world you want to live in. If you think about all that, what improvements would you make? In technology? In context? In use?...

HATEFUL AND CRIMINAL ACTORS

Now that you have thought hard about how bad actors can impact this technology, what improvements would...

If you think about this technology being used to break the law, or avoid the consequences of breaking the law, or to be used against certain groups, or to attack the truth or to pit certain groups against each other. If you think about all of that, what improvements would you (want to) make? In the technology? In context? In use?...

PRIVACY

Now that you have thought hard about privacy and data protection, what improvements would you like to make?...

If you think about this technology invading someone's privacy or collecting personal data and if you think about the way this technology is compliant with prevailing law and mitigates dataprotection risks and concerns. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

HUMAN VALUES

Now that you have thought hard about the impact of your technology on human values, what improvements...

If you think about the impact of this technology on human values and needs. If you think about how this technology affects the identity of the user, the autonomy of the user (can the users make their own decisions?) and the health and well-being of the user. If you think about all that, what improvement would you (want to) make? In the technology?...

STAKEHOLDERS

Now that you have thought hard about all stakeholders, what improvements would you like to make? List them...

If you think about all stakeholders of this technology. If you think about stakeholders that are less obvious. If you think about the way certain stakeholders are affected by this technology and if you want to take them into consideration. If you think about all that, what would you (want to) improve? In the technology? In context? In use?...

DATA

Now that you have thought hard about the impact of data on this technology, what improvements would you...

If you think about the limitations of data. Things like subjectivity, incomplete datasets and so on. If you think about the way new insights are handled. If you think about the sustainability of the collection of data or the data that is collected from the users. If you think about all that, what would you (want to) improve? In the technology? In context?...

INCLUSIVITY

Now that you have thought hard about the inclusivity of the technology, what improvements would you like to...

If you think about accessibility to this technology. If you think about built in biases or automatic decisions that may be biased. If you think about who is benefitting from this technology and the diversity of the team that creates the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

TRANSPARENCY

Now that you have thought hard about the transparency of this technology, what improvements would you like t...

If you think about the communication on the way the technology works and the businessmodel. If you think about the explanation on automatic decisions that are made. If you think about complaint procedures and transparency on possible negative effects. If you think about all that, what would you (want to) improve? In the technology? In context?...

SUSTAINABILITY

Now that you have thought hard about the sustainability of this technology, what improvements would you like t...

If you think about the direct and indirect energy use and the materials that are used in the technology. If you think about the lifespan of the technology and the hidden environmental impact of the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

FUTURE

Impact Improvement: Now that you have thought hard about the future impact of the technology, what...

If you think about an utopian and a dystopian scenario. If you think about the way this technology can change the world. If you think about the consequences of a different party buying your technology. If you think about all that, what would you (want to) improve? In the technology? In context? In use? ...
