

NAME: AI detector 

DATE: July 4, 2025 11:11 AM

DESCRIPTION OF TECHNOLOGY
De AI detector controleert bij het uploaden van een pin op Pinterest of het werk al eerder is ge-upload en of het auteursrechtelijk beschermd is.

HUMAN VALUES 

Te complex

TRANSPARENCY 

Het is cruciaal dat gebruikers begrijpen hoe de technologie beslissingen maakt. Een manier om de transparantie te verbeteren is door duidelijke en gebruiksvriendelijke uitleg te bieden over hoe de AI-algoritmes werken en hoe beslissingen zoals het detecteren van plagiaat gebeurt.

IMPACT ON SOCIETY 

Misschien niet alleen beeldherkenning gebruiken, maar ook aanvullende gegevens (zoals publicatiedatum en broninformatie) om te beoordelen of iets echt plagiaat is. De AI moet blijven bijleren van de onterechte plagiaat meldingen, en misschien minder afhankelijk worden van de persoonsgegevens.

STAKEHOLDERS 

Te complex

SUSTAINABILITY 

Niet relevant

HATEFUL AND CRIMINAL ACTORS 

Ik wil dat de AI detector minder gaat letten op persoonsgegevens maar dat de focus echt meer gaat naar de afbeelding. Zoals publicatiedatum en broninformatie. Misschien is zelfs een onzichtbaar watermerk een idee. Daar zijn de persoonsgegevens nog minder voor nodig.

DATA 

Te complex

FUTURE 

Het lijkt me een sterk plan om niet langer naar persoonsgegevens te kijken, maar naar de afbeelding zelf. Wat als elke afbeelding bij het uploaden automatisch een onzichtbaar watermerk krijgt? Hiermee breid ik mijn AI uit, zodat het niet alleen plagiaat detecteert (door het lezen van het onzichtbare watermerk), maar ook zelf het watermerk in de afbeelding plaatst.

PRIVACY 

Het is cruciaal om privacy van gebruikers te beschermen en ervoor te zorgen dat de technologie voldoet aan privacywetgeving. De technologie moet ontworpen worden met de privacy van de gebruiker in gedachten. Dus moet de tool echt alleen noodzakelijke gegevens verzamelen, in plaats van uitgebreide persoonlijke gegevens zoals volledige naam, locatie, etc.

INCLUSIVITY 

Te complex

DESCRIPTION OF TECHNOLOGY
De AI detector controleert bij het uploaden van een pin op Pinterest of het werk al eerder is ge-upload en of het auteursrechtelijk beschermd is.

HUMAN VALUES 

Now that you have thought hard about the impact of your technology on human values, what improvements...

If you think about the impact of this technology on human values and needs. If you think about how this technology affects the identity of the user, the autonomy of the user (can the users make their own decisions?) and the health and well-being of the user. If you think about all that, what improvement would you (want to) make? In the technology?...

TRANSPARENCY 

Now that you have thought hard about the transparency of this technology, what improvements would you like t...

If you think about the communication on the way the technology works and the businessmodel. If you think about the explanation on automatic decisions that are made. If you think about complaint procedures and transparency on possible negative effects. If you think about all that, what would you (want to) improve? In the technology? In context?...

IMPACT ON SOCIETY 

Now that you have thought hard about the impact of this technology on society (by filling out the questions...

If you think about the real problem this technology is going to solve. If you think about the ability of this technology to solve the real problem. If you think about possible negative effects and whether this technology will contribute to a world you want to live in. If you think about all that, what improvements would you make? In technology? In context? In use?...

STAKEHOLDERS 

Now that you have thought hard about all stakeholders, what improvements would you like to make? List them...

If you think about all stakeholders of this technology. If you think about stakeholders that are less obvious. If you think about the way certain stakeholders are affected by this technology and if you want to take them into consideration. If you think about all that, what would you (want to) improve? In the technology? In context? In use?...

SUSTAINABILITY 

Now that you have thought hard about the sustainability of this technology, what improvements would you like t...

If you think about the direct and indirect energy use and the materials that are used in the technology. If you think about the lifespan of the technology and the hidden environmental impact of the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

HATEFUL AND CRIMINAL ACTORS 

Now that you have thought hard about how bad actors can impact this technology, what improvements would...

If you think about this technology being used to break the law, or avoid the consequences of breaking the law, or to be used against certain groups, or to attack the truth or to pit certain groups against each other. If you think about all of that, what improvements would you (want to) make? In the technology? In context? In use?...

DATA 

Now that you have thought hard about the impact of data on this technology, what improvements would you...

If you think about the limitations of data. Things like subjectivity, incomplete datasets and so on. If you think about the way new insights are handled. If you think about the sustainability of the collection of data or the data that is collected from the users. If you think about all that, what would you (want to) improve? In the technology? In context?...

FUTURE 

Impact Improvement: Now that you have thought hard about the future impact of the technology, what...

If you think about an utopian and a dystopian scenario. If you think about the way this technology can change the world. If you think about the consequences of a different party buying your technology. If you think about all that, what would you (want to) improve? In the technology? In context? In use? ...

PRIVACY 

Now that you have thought hard about privacy and data protection, what improvements would you like to make?...

If you think about this technology invading someone's privacy or collecting personal data and if you think about the way this technology is compliant with prevailing law and mitigates dataprotection risks and concerns. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

INCLUSIVITY 

Now that you have thought hard about the inclusivity of the technology, what improvements would you like to...

If you think about accessibility to this technology. If you think about built in biases or automatic decisions that may be biased. If you think about who is benefitting from this technology and the diversity of the team that creates the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...
